

Atlanta Open Training

EarthSoft is excited to announce that we will be holding an Open Training in Atlanta, Georgia **February 15th through 18th**. During the training, users will gain confidence managing their environmental data efficiently using EQulS. Trainees will also gain hands-on experience with data reporting and exporting data to widely-used third party modeling and graphics programs.

This Open Training session will be led by Sarah Wright, the EarthSoft Training Manager. Ms Wright has been part of EarthSoft's Help Desk, Training, and Client Management teams for 5 years. As an expert EQulS user, she has led many EQulS trainings sessions, implemented EQulS systems, and used EQulS in her previous job as an environmental consultant.

The full **Agenda** and **Registration** pages may be found at the following links:

[**Agenda**](#)
[**Registration Form**](#)

There may be modifications to the agenda up to 15 days prior to the training.

This training is open to all EQulS clients, so please book early. Space is limited.

Discounted prices for Early Registration are available until February 1st.
