

US EPA Region 2 EQuIS Enterprise and ArcGIS Workshops

► ► ► Presented by US EPA Region 2 and EarthSoft, Inc.

Discussion Includes:

- Compare results across multiple facilities.
- Easily compare results to site specific and federal MCL standards.
- Receive site reports automatically via email.
- View your data in ArcGIS.
- Simplify the 5 year review process.
- Exchange data with Scribe, F2L, WQX, and other common EPA tools.
- Discuss new Vapor Intrusion Data.

Join us May 11 & 12th EQuIS Enterprise and ArcGIS Workshop

EarthSoft President Janet Magurn and ArcGIS Programmer Marc Bate will be at EPA Region 2 on May 11 & 12 for data management and GIS workshops held for EPA staff.

Come see EPA Region 2 data reported using EQuIS Enterprise's web interface. EQuIS Enterprise lets you set up automated monitoring of your data, with email reports and data-driven triggered reports.

Discuss requirements for data exchanges for location data, SCRIBE, F2Lite, CLP, vapor intrusion and other common EPA systems.

The May 11th sessions are for EQuIS Enterprise. Both morning and afternoon sessions are hands-on reporting through this web interface.

The sessions on May 12th are for EQuIS for ArcGIS. The morning session is a demonstration of EPA R2 data in ArcGIS and the afternoon session is interactive.

RSVP mandatory if you plan to attend in person at 290 Broadway

May 11, 2011
Reporting Data in Web Portal
Morning Session
9:00-12:30

Afternoon Session
1:00-3:30

May 12, 2011
Morning 9:30-11:30
How EPA is using the MEDD data in ArcGIS
Afternoon 1:00-3:30
ArcGIS Hands-on with Region 2 Data
