

EQUS[®] Open Training

June 14–16, Denver, Colorado

Class Description:

This EQUS Training Class will provide the skills and techniques for managing and analyzing environmental data using EarthSoft's Environmental Quality Information System, or EQUS. Attendees will gain hands-on experience working with environmental geology and analytical chemistry data. Workflow automation and web techniques will be covered using EQUS Enterprise. A site characterization exercise will train users to access data in the ArcView GIS spatial environment.

Additionally, this EQUS Training Class will have a special emphasis on the EQUS Sample Planning Module (SPM) and the EQUS Data Gathering Engine (EDGE). Attendees will learn how to use EQUS SPM to create tasks for the future, add contracts, methods and labs and also create Sample Analysis Plans that comply with USEPA standards. Students will learn how to check the completeness of scheduled sampling and non-sampling field activities. In addition to SPM, the training instruction will also focus on EDGE for collecting environmental field data, creating standardized Chains of Custody and generating Electronic Data Deliverables to import into EQUS.

While much of the class will be focused on the implementation and use of EQUS, discussion will also include critical data management principles such as:

- Developing standard operating procedures for data management
- Creating sampling plans
- Working with analytical labs
- Field procedures and data collection

Location and Requirements

This course will be held at 44 Union Boulevard, Suite 300, Lakewood, Colorado.

Please bring your own laptop for use during this training class. Instructions for downloading and installing EQUS, visualization and analysis tools, and ArcGIS evaluation software will be provided two weeks prior to the training.

Cost and Registration

The early registration fee of \$1,500 (\$1,800 for registration after June 1, 2011) includes instruction, and hand-on use of EQUS, and class notes. To register for the course, please fill out the included Training Registration form and fax to 503-345-0212 or email to training@earthsoft.com.
